IT ENGINEER 📍 CLERMONT-FERRAND, FRANCE

Hello

I'm a 38 yo Technical Architect and Java expert with 15+ years experience working in Clermont-Ferrand, France.

Experience

Architect

Since 2018 - CGI

As a **Technical leader** and **Architect**, I worked on several java projects implementing **micro services**, and more recently, **event sourcing**.

I'm in charge of designing the technical solution and explaining the switch from states based monolith application to distributed & event sourced workflow.

In parallel, I began to work as a "**Career Manager**" with a 10-15 peoples team.

EVENT SOURCING KAFKA / STREAM CONTINUOUS DELIVERY
MICROSERVICES KUBERNETES MANAGEMENT TEAM LEAD

Technical Leader

2015 → 2018 - CGI

My first experience on **java distributed application**, where I began to work on designing applications at **technical architecture** level.

DISTRIBUTED ARCHITECTURE TECHNICAL LEADER JAVA
MICROSERVICES SPRINGBOOT

Technical Leader & Test Coach

2008 → 2015 - Unilog & Logica

As a **Java expert developer** I quickly evolved to a **Technical Leader** role mentoring several teams in France and also remotely with India.

I also worked as a test coach in a transversal entity to spread and deploy good test methodologies and tools at an enterprise scale.

JAVA TECHNICAL LEADER TESTS COACH

Developer

2004 → 2008 - Unilog

As a **developer** I began ma career working with different Unilog customers and exploring multiple technologies and development methodologies.

Working on several high stakes projects led me to begin technical design and to be in charge of dev quality & delivery processes.

Interests & Skills

My career path led me to an architect and manager roles, but as a tech enthusiast I'm still thrilled by pure development and learning technical skills.

My wishes for a perfect job could be summarized with those 3 main topics :

New Tech implementation and expertise
Human interactions and team lead
Challenges on technical architecture designs

Soft skills

Adaptability
Communication
Leadership

Methods & Patterns

Distributed architectures
Event Sourcing / EDA
REST API
Tests and code quality

Technical skills

Java ecosystem
Springboot
Kafka / Kafka Stream
Kubernetes / docker

Angular
Javascript
Gitlab & Gitlab-CI
linux/unix admin bases

Education

DUT Informatique, Université d'Auvergne
TWO-YEAR UNIVERSITY DEGREE IN IT (2004)

Baccalauréat Génie Electronique
HIGH-SCHOOL DEGREE (SPECIALITY ELECTRONICS) (2001)

Hobbies

Electronics & domotics, Guitar, Sci Fi books & comics, Science vulgarisation, Various DIY (wood working, gardening, house building) ...
